that are popular**

return_to_menu

Printf "Do you want to
return to the menu"

Yes

Menu();

No

Quit_game

quit_game

return 0;

print goodbye

play_one_round

roll five dice and print
the values of them

add 1 to the total
number of rolls for this
round.

if the total number of
rolls for this round is
less than three, ask the
player yes or no if they
want to use the roll for
one of the game
combinations.

printf scoreboard with
adjusted values
